

Boxplot & Frequency Results

TracerBench on HeadlessChrome

duration (571 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **faster** by **571 ms**. TracerBench is 95% confident "Experiment" is **faster** between **63 ms to 1322 ms** based on 50 samples using a ([confidence interval](#)).

Cumulative sub-phases of duration

The chart below shows the finish times (a point in the page load duration) of the sub-phases for experiment and control. It gives a high level view on what changed (if any).

You can view more details about the sub-phases in the section below "Isolated sub-phases of duration".

Isolated sub-phases of duration

renderEnd (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render1000Items1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

clearItems1End (31 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **slower** by **31 ms**. TracerBench is 95% confident "Experiment" is **slower** between **15 ms to 43 ms** based on 50 samples using a ([confidence interval](#)).

render1000Items2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

clearItems2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **strong**. TracerBench has determined the results are **not significant**.

render10000Items1End (185 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **185 ms**. TracerBench is 95% confident "Experiment" is **faster** between **7 ms to 352 ms** based on 50 samples using a ([confidence interval](#)).

clearManyItems1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render10000Items2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

clearManyItems2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render1000Items3End (57 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **faster** by **57 ms**. TracerBench is 95% confident "Experiment" is **faster** between **35 ms to 87 ms** based on 50 samples using a (*confidence interval*).

append1000Items1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **strong**. TracerBench has determined the results are **not significant**.

append1000Items2End (86 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **faster** by **86 ms**. TracerBench is 95% confident "Experiment" is **faster** between **43 ms to 122 ms** based on 50 samples using a (*confidence interval*).

updateEvery10thItem1End (58 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **faster by 58 ms**. TracerBench is 95% confident "Experiment" is **faster between 28 ms to 90 ms** based on 50 samples using a (*confidence interval*).

updateEvery10thItem2End (39 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **faster by 39 ms**. TracerBench is 95% confident "Experiment" is **faster between 19 ms to 57 ms** based on 50 samples using a (*confidence interval*).

selectFirstRow1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

selectSecondRow1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

removeFirstRow1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

removeSecondRow1End (33 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **33 ms**. TracerBench is 95% confident "Experiment" is **faster** between **17 ms to 53 ms** based on 50 samples using a ([confidence interval](#)).

swapRows1End (11 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **faster by 11 ms**. TracerBench is 95% confident "Experiment" is **faster between 3 ms to 21 ms** based on 50 samples using a (*confidence interval*).

swapRows2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **strong**. TracerBench has determined the results are **not significant**.

clearItems4End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

finalGcEnd (336 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **336 ms**. TracerBench is 95% confident "Experiment" is **faster** between **82 ms to 429 ms** based on 50 samples using a ([confidence interval](#)).

paint (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.
