

Boxplot & Frequency Results

TracerBench on HeadlessChrome

duration (129 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **slower** by **129 ms**. TracerBench is 95% confident "Experiment" is **slower** between **4 ms to 267 ms** based on 50 samples using a ([confidence interval](#)).

Cumulative sub-phases of duration

The chart below shows the finish times (a point in the page load duration) of the sub-phases for experiment and control. It gives a high level view on what changed (if any).

You can view more details about the sub-phases in the section below "Isolated sub-phases of duration".

Isolated sub-phases of duration

renderEnd (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render1000Items1End (40 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster by 40 ms**. TracerBench is 95% confident "Experiment" is **faster between 18 ms to 64 ms** based on 50 samples using a ([confidence interval](#)).

clearItems1End (45 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **slower by 45 ms**. TracerBench is 95% confident "Experiment" is **slower between 35 ms to 51 ms** based on 50 samples using a ([confidence interval](#)).

render1000Items2End (12 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **faster by 12 ms**. TracerBench is 95% confident "Experiment" is **faster between 3 ms to 23 ms** based on 50 samples using a (*confidence interval*).

clearItems2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **strong**. TracerBench has determined the results are **not significant**.

render10000Items1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

clearManyItems1End (34 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **slower** by **34 ms**. TracerBench is 95% confident "Experiment" is **slower** between **26 ms to 40 ms** based on 50 samples using a (*confidence interval*).

render10000Items2End (838 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **slower** by **838 ms**. TracerBench is 95% confident "Experiment" is **slower** between **755 ms to 880 ms** based on 50 samples using a (*confidence interval*).

clearManyItems2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render1000Items3End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

append1000Items1End (31 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **31 ms**. TracerBench is 95% confident "Experiment" is **faster** between **4 ms to 62 ms** based on 50 samples using a ([confidence interval](#)).

append1000Items2End (110 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **110 ms**. TracerBench is 95% confident "Experiment" is **faster** between **73 ms to 138 ms** based on 50 samples using a ([confidence interval](#)).

updateEvery10thItem1End (73 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **faster by 73 ms**. TracerBench is 95% confident "Experiment" is **faster between 59 ms to 86 ms** based on 50 samples using a (*confidence interval*).

updateEvery10thItem2End (91 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **faster by 91 ms**. TracerBench is 95% confident "Experiment" is **faster between 75 ms to 104 ms** based on 50 samples using a (*confidence interval*).

selectFirstRow1End (26 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **faster by 26 ms**. TracerBench is 95% confident "Experiment" is **faster between 18 ms to 44 ms** based on 50 samples using a (*confidence interval*).

selectSecondRow1End (27 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **slower** by **27 ms**. TracerBench is 95% confident "Experiment" is **slower** between **20 ms to 32 ms** based on 50 samples using a (*confidence interval*).

removeFirstRow1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

removeSecondRow1End (32 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **faster** by **32 ms**. TracerBench is 95% confident "Experiment" is **faster** between **20 ms to 42 ms** based on 50 samples using a (*confidence interval*).

swapRows1End (21 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **21 ms**. TracerBench is 95% confident "Experiment" is **faster** between **14 ms to 30 ms** based on 50 samples using a ([confidence interval](#)).

swapRows2End (10 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **10 ms**. TracerBench is 95% confident "Experiment" is **faster** between **2 ms to 17 ms** based on 50 samples using a ([confidence interval](#)).

clearItems4End (5 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **slower** by **5 ms**. TracerBench is 95% confident "Experiment" is **slower** between **2 ms to 7 ms** based on 50 samples using a ([confidence interval](#)).

finalGcEnd (285 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges-Lehmann estimator*) was used to determine "Experiment" is **faster by 285 ms**. TracerBench is 95% confident "Experiment" is **faster between 253 ms to 304 ms** based on 50 samples using a (*confidence interval*).

paint (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.
