

Boxplot & Frequency Results

TracerBench on HeadlessChrome

duration (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

Cumulative sub-phases of duration

The chart below shows the finish times (a point in the page load duration) of the sub-phases for experiment and control. It gives a high level view on what changed (if any).

You can view more details about the sub-phases in the section below "Isolated sub-phases of duration".

Isolated sub-phases of duration

renderEnd (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render1000Items1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

clearItems1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render1000Items2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

clearItems2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

render10000Items1End (259 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **slower** by **259 ms**. TracerBench is 95% confident "Experiment" is **slower** between **20 ms to 505 ms** based on 50 samples using a ([confidence interval](#)).

clearManyItems1End (26 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **slower** by **26 ms**. TracerBench is 95% confident "Experiment" is **slower** between **1 ms to 49 ms** based on 50 samples using a (*confidence interval*).

render10000Items2End (431 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **slower** by **431 ms**. TracerBench is 95% confident "Experiment" is **slower** between **164 ms to 711 ms** based on 50 samples using a (*confidence interval*).

clearManyItems2End (35 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **slower** by **35 ms**. TracerBench is 95% confident "Experiment" is **slower** between **7 ms to 63 ms** based on 50 samples using a (*confidence interval*).

render1000Items3End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

append1000Items1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

append1000Items2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

updateEvery10thItem1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

updateEvery10thItem2End (42 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **42 ms**. TracerBench is 95% confident "Experiment" is **faster** between **7 ms to 83 ms** based on 50 samples using a ([confidence interval](#)).

selectFirstRow1End (51 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges-Lehmann estimator](#)) was used to determine "Experiment" is **faster** by **51 ms**. TracerBench is 95% confident "Experiment" is **faster** between **38 ms to 63 ms** based on 50 samples using a ([confidence interval](#)).

selectSecondRow1End (44 ms slower)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator ([Hodges–Lehmann estimator](#)) was used to determine "Experiment" is **slower** by **44 ms**. TracerBench is 95% confident "Experiment" is **slower** between **34 ms to 55 ms** based on 50 samples using a ([confidence interval](#)).

removeFirstRow1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **strong**. TracerBench has determined the results are **not significant**.

removeSecondRow1End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

swapRows1End (26 ms faster)

Based on the P-value of this benchmark the evidence for a metric shift is **very strong**. TracerBench has determined the results are **significant** meaning they are worth looking at. A statistics estimator (*Hodges–Lehmann estimator*) was used to determine "Experiment" is **faster by 26 ms**. TracerBench is 95% confident "Experiment" is **faster between 1 ms to 53 ms** based on 50 samples using a (*confidence interval*).

swapRows2End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **strong**. TracerBench has determined the results are **not significant**.

clearItems4End (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.

paint (No/Borderline Difference)

Based on the P-value of this benchmark the evidence for a metric shift is **weak**. TracerBench has determined the results are **not significant**.
